

# **NSW Production Touring Car Club**

January 2022

## **Race Number Allocation & Guidelines**

- Only one (1) race number will only be issued to a PTC member who is the owner of an eligible 3E race car.
- A PTC member, who does not own an eligible 3E race car, ie: leasing or co-driver, can request a race number for championship or club scheduled events.
- Any race number that has not been used in the last two preceding years championships will be forfeited. A current PTC member may apply for an exemption to the aforementioned forfeit, in writing to the committee for their consideration.
- All allocated PTC members' race numbers will be documented in the clubs online Member Jungle data base.
- All members are requested to use their allocated race numbers throughout the race season.
- A clubs Life Membership does not give an automatic retention of a race number outside of the aforementioned two year period.
- A race number will be forfeited once the membership expires after the 90 day grace period.
